Parenting Journey in Recovery

Addiction is complicated and difficult to overcome. Parents and caregivers in recovery face the additional challenge of building strong, positive relationships with their children while maintaining their recovery, which can be both rewarding and at times, daunting. Parenting Journey in Recovery provides a valuable source of support and enhances awareness of triggers that may bring about a recurrence of substance use disorders or addiction. Personal recovery, accountability, positive actions and hard work are only some of the topics discussed by group members.

If the group classes that are running at this time do not meet the needs of a client, we will work one-on-one with the client until a group class is available.
